

What similarities and differences do you see between these two astronauts?

Nichelle Nichols was an **actress** who portrayed Lt. Nyoto Uhura, astronaut, on the television show *Star Trek*. She played this role from 1966-1969.

Ronald McNair was a **real** astronaut and physicist who died during his second voyage to space in 1986 aboard the Challenger space shuttle.

What similarities and differences do you see in each of the images? You are encouraged to note why these similarities and differences occur in the Thoughts/Comments column.
