LEARN EVERY WHERE

CHALLENGE

The Learn Everywhere Challenge is made by the Michigan Learning Channel

The Michigan Learning Channel provides educators and families with free PBS videos and printable resources designed to ensure all kids succeed. Learn more at www.MichiganLearning.org/LearnEverywhere

Support provided by: Donald and Mary Kosch and Elaine Stern Foundation. The Michigan Learning Channel is funded through a grant awarded by the Michigan Department of Education and the U.S. Department of Education.

HOW TO USE THIS BOOK

This book has missions designed for preschool through high school learners, organized by age.

First, complete the Getting Started missions on the next page. Then, on the **first Monday in March**, start the challenge with Week 1 missions. **Check off missions** as you complete them to track your points.

Then, at the beginning of the next week, start the Week 2 missions. Repeat this every week for a total of 8 weeks. You can always go back to try missions from previous weeks. At the end of the challenge, write in your total points for each week on page 41. For more information, visit **MichiganLearning.org/LearnEverywhere**.

Some missions require you to complete an **activity guide** that can be downloaded from our website. No printer? No problem! Complete the guide digitally using a document editor, or complete the activities on a scrap piece of paper.

Some missions ask you to answer a **discussion question**. Find a friend, family member, or teacher to exchange answers with.

For **bonus points**, try the **student created missions** and additional **bonus missions** near the end of this book.

Some missions ask you to watch an **episode** that interests you from a series or collection. You can find these by using the **search** feature at MichiganLearning.org, or by browsing all of our shows at **MichiganLearning.org/Shows**.
