

## **Design a Poster to Promote a Woman in the STEM Field**

### **Directions:**

**Search the internet to find information about a woman who works in the field of Science, Technology, Engineering or Math.**

### **Research information to think about including on your poster:**

The name of the person

This person was born in:

This person lives in (city, state):

This person works at:

A contribution this person made to the STEM field is:

This contribution/discovery was helpful because:

Another interesting fact about this person is:

Feel free to add anything else you think might be interesting for a promotional poster:

Here is a picture of the person I researched. (Copy and paste a screenshot below)

**Now create a poster to promote this woman as a representative of someone working in the STEM field.**

- Use large lettering, bright colors, and attention grabbing images to make your poster visually attractive.
- You can create this on large paper, or in a digital format (like Canva or Google Slides), or another digital tool of your choice.

Then share it with your classmates.
